

GOAL TREE ("Strategic Plan")

I learned about CMTP's Question-Based Planning as a director at Sauk Prairie Healthcare, where it's been a repeat success; the one-page 'goal tree' really got my attention. At Culver's, it helped our management team get and stay clear on the key issues. The plan helped us make real progress in every discipline. - Phil Keiser, CEO, Culver Franchising System, Inc.

Introduction

Traditional strategic planning is based on a military model from the 1950's, with terms like mission, strategy, tactic, objective, logistics and so forth. The result is often a thick "strategic plan" binder no one uses. The Goal Tree breaks that habit. Used in conjunction with others of the Center's tools, it can summarize the critical points of focus for everyone's work as a team.
